JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

ber 1 to date. Above diagnosis is that of physicians who attended cases. I think doubt has been thrown in favor of positive diagnosis; many reported doubtful are not yellow, but some should be added for cases in practice of another physician. Houses in which suspicious disease has occurred are being disinfected. Details by letter.

LOUISIANA.

New Orleans.—November 10, 1 case, 1 death.

Yellow fever in the United States as reported to the Surgeon-General United States Marine-Hospital Service from August 31 to November 17, 1899.

a At quarantine station. b Yellow fever reported.

Plan of the Ohio State board of health for preventing tuberculosis in animals.

COLUMBUS, OHIO, October 1, 1899.

SIR: We hope to enlist your aid and support in carrying out a plan, now under consideration by the State board of health, to bring before the cattle owners and agriculturists of Ohio the question of adopting
